

# Personal Website Project

100 points- due Tuesday November 22, 2011

## **Description:**

Your mission is to create your own website using Weebly.com. This website will be used to display some of your Computer Applications Class work throughout the rest of the year.

## **Elements:**

Your website needs the following pages:

- Homepage- include an appropriate title of your website and graphics/pictures
- Information Page- Give the readers an overview about you
- My Hobby Page- reveal something to your readers by sharing something you like to spend time doing
- My Class work Page- set up a page for class work to be posted as time goes along
- My favorite links Page- display at least 10 of your favorite website links

Each page should have information, pictures and or graphics. Also, make sure each page has buttons or links on each web page to navigate around to the rest of the website pages.

**Copy & Send your website address**
